THAT TARIFF BILL

Is the Absorbing Topic at the National Capitol.

It Will Pass, But "Will Never Look Like Anything."

THREATS OF RETALIATION

From Foreign Countries Cause Consternation in the Ranks of the Tariff Tariffers.

WASHINGTON, May 11.—[Special.]—We do not hear much in Washington these days except tariff talk. Everybody is discussing the senate revision of the bill and comparing it with the house measure. Wherever one goes he hears talk of the finance committee bill, the Dingley bill, the Wilson bill, the McKinley bill, the Mills bill and of rates and schedules, ad valorem and specific, till one's head has a dizzy motion. The revenue, yet was a tariff bill that suited everybody. There are plenty of people satisfied with it. They, as a rule, are gentlemen who have interest in only one or two things, and who through these few things happen to be fixed just right. But the vast majority of the people are interested in the tariff as a whole, and in the tariff as a whole they are not satisfied. They are not satisfied with the tariff as a whole, and in the tariff as a whole they are not satisfied. They are not satisfied with the tariff as a whole, and in the tariff as a whole they are not satisfied.

Fighting His Way to the Top.

The following from the Humboldt (Tenn.) Progress will be read with pleasure by the many friends of Dr. Willitt at his old home. "A Progress representative chanced to call at the office of Dr. J. Max Willitt this week. Dr. Willitt had just received quite a number of the latest and most improved surgical instruments, including a compressed air spray, used in treating diseases of the nose and throat, and everything necessary in performing operations in connection with surgery and diseases of women and children. Dr. Willitt is giving special attention to diseases of the nose and throat and has been very successful in that line of practice. About one year and a half ago, Dr. J. Max Willitt moved to Humboldt from Kentucky, buying out Dr. Carroll's home practice. As soon as he came here, he identified himself with every interest of the town and community, and by his untiring labors and courtesy has won the respect and admiration of all who know him. He is an active member of the Baptist church and an enthusiastic K. P. He is an examining physician in his profession, and is determined to be one of the leading physicians and surgeons in West Tennessee.

W. J. BRYAN'S CRITICISM OF MR. CLEVELAND'S REFORM SPEECH.

The presence of Mr. Cleveland, two members of his cabinet, and such eminent gold Democrats as ex-Secretaries of the Treasury, Bryan and Patterson, made the banquet an important political event, and the address delivered by Mr. Cleveland may fairly be accepted as setting forth the present views and future purposes of the bolting Democrats.

Probably the most unexpected thing in the address was the reference to the Republican administration. The bolting Democrats have been hurried into the mire of the extreme protection. This is an unfair criticism, because the Republicans have never shown any disposition to abandon protection.

Mr. McKinley won political fame as the apostle of high tariff, and during the late campaign reflected his devotion to this policy. The Democrats who voted for Mr. McKinley voted with their eyes open to tariff possibilities.

Neither have those Democrats shown to complain of Mr. McKinley's attitude on the money question. To be sure the president has sent an angry arrow in search of, not a goldbullet, but an object equally elusive, namely, an international agreement for the restoration of bimetallism, but in doing so he is only carrying out a pledge contained in his platform.

Unless the gold Democrats were in possession of assurance not given to the public generally, or they expected the president to abandon his platform, they ought to be satisfied with their financial policy. He promised to maintain the gold standard and to let the market take its course, and he is doing it in spite of the continued clamor for such a policy.

The Democrats who supported the Chicago platform can consistently condemn both the tariff policy and the financial policy of the administration, but those who supported Mr. McKinley are only receiving what they had a right to expect.

Mr. Cleveland accuses the Republicans of a determination "to repay parties won through the proceeds of increased burdens of taxation placed upon those already overburdened."

He knew that the Republicans had collected a campaign fund larger than ever before known in American politics. Did it ever occur to him that the contributors would ever expect repayment through legislation friendly to their interests. Has not the Dingley bill been drawn exactly upon the plan of the McKinley bill? It may differ in its schedule, but does not differ in its spirit, and preparation. If that is so, Democrats who supported Mr. McKinley have no reason to criticize his course, what shall we say to those Democrats who supported the Indianapolis ticket?

What claim have they to consideration at the hands of the president. Mr. Cleveland accuses the Democrats of having supported the Chicago ticket, but he does not say that they did not support the Indianapolis ticket.

CUBAN CAPITOL ATTACKED,

Causing Considerable Excitement Among the Spanish Braves.—Other News Items.

Key West, Fla., May 10.—Word reaches here that intense excitement was caused in Havana Friday night by a sharp and prolonged outbreak of masonry in the suburbs, and Saturday morning it was learned that a serious attack had been made by the insurgents on the Cuban capitol.

Details of the firing have been suppressed by the authorities, but from the fact that several hundred men were hurrying from the city to support the troops at the point attacked, it is believed that the insurgents intended to capture the capitol.

It is also said that before daybreak a considerable number of wounded soldiers were brought back to the city.

Good times are coming. We feel it in our business and so does every other man who wants good times and is making an honest effort to bring them.

The Democrats of Louisville are of one mind, that the Republicans in high places in that city should be turned out, but just how they can do this, it seems to be the most perplexing question.

The Breckenridge Bank has nearly a \$100,000 of idle money. This is not at all showing for a town like ours. It shows that this community is not lagging for the want of money, clearly. We'd much rather see it this way than a \$100,000 short.

DEMOCRATS should remember the date of the district meetings for selecting delegates to the county convention that is to nominate a candidate for Circuit Judge, Commonwealth's Attorney and State Senator. The date is Saturday May 22. Delegates should be selected from each precinct without fail.

The boys say Clarence Mattingly still makes regular trips over Cliffe every Sunday, but he always gets there before night.

The mail route running from this place, goes now to Jolly Station, instead of Glendenside, only a few miles difference in the distance.

Quite a disturbance was created on Tar creek, near Pisgah, Thursday evening over a shooting affair between Joseph Mullen and Charles Ryan. It is reported that Mullen was driving Ryan's horse out of his (Mullen's) corn field, when Charles Ryan and his father, Wm. Ryan, approached him. There being an old grudge between the two parties, but a few words were passed until Mr. Ryan leveled a shot gun on Mullen, but Charles Ryan stepped between the two in time to prevent the intended shot. Ryan remarked to his father to stand aside, that he would act in his place. At this words he leveled a revolver and fired at Mullen twice, fortunately neither shot took effect. Ryan and Mullen are both highly respected farmers of this community, and it is much to the regret of their neighbors that such a thing occurred.

James Tucker, of Harlan, has moved his family to this place and occupies the old Hensley property. He is erecting a blacksmith shop on the premises and is going to follow the trade.

A. R. Richardson, Garfield, is the place to buy goods cheap. Millinery, a specialty, this season. Ladies' hats trimmed in the latest style. Country produce taken in exchange for goods.

It is said that in the spring, birds fly miles to get particular lands and that cattle will go almost as far for fresh vegetable food. But man, he usually takes an old grudge between the two parties, but a few words were passed until Mr. Ryan leveled a shot gun on Mullen, but Charles Ryan stepped between the two in time to prevent the intended shot. Ryan remarked to his father to stand aside, that he would act in his place. At this words he leveled a revolver and fired at Mullen twice, fortunately neither shot took effect. Ryan and Mullen are both highly respected farmers of this community, and it is much to the regret of their neighbors that such a thing occurred.

The News is in receipt of two beautiful photographs, 8x12, taken by Hutchinson & Brown, photographers now located at Wall Creek. One is the residence of Eliza Ashcraft, candidate for State Senator, and the other is a group of beautiful Catholic girls and boys, of Painesville. The pictures are on exhibition in our show window and attract a good deal of attention.

Bro. Pate is delivering a series of interesting sermons at the Methodist church. Services morning and evening. To have a revival of religion, to have an awakening, to feel the influence of the holy spirit all Christians should work together regardless of denomination. To save souls should be the one thought.

I promised Mrs. McFall, of Leavenworth, Ind., to send the Register, of her own, some Meade county items. Mrs. McFall is a wide-awake up-to-date woman and I enjoyed our "chat" on the Reagon. She is a Democrat and helped me fight Ryan, who is McKinley-Dingley Republican, but all the same she knows how to run a nice little steamboat as do all Bishop and Mr. Peckinpaugh. More of the latter gentlemen in our midst.

This afternoon, Wednesday, at 4 o'clock P. M. D. M. Duncan, assistant manager and editor of the Meade County Messenger, will be united in marriage to Miss Pearl Dittie, daughter of Mr. and Mrs. Abram Dittie, of this place. The wedding will be a very quiet home affair. No invitations at all. The contracting parties are extremely popular and number so many friends on their list that they determined to do it in a quiet way. No invitations. Mrs. H. V. Duncan, the mother of the groom-elect, will arrive this morning. Bro. Pate will be the knot, and he is renewed for his supreme ceremony. He ties double bow knots into personified love knots. The bride and groom will take the east-bound train for Louisville where they will spend a day or two when they will go to Cloverport for a few days reaching here on Sunday next. I have had the pleasure of viewing the bride's trousseau. Every article is sweet, beautiful, dainty like the one our own country produces. The quality and the material are first-class as is the possesser. Pearl Dittie is one of the very loveliest girls I have ever known. Her husband is a well-to-do and an accomplished musician. She holds the key to all the secrets of how to make home and others happy for she is a consistent, consecrated Christian in all it is meant. Her husband is a polished, gentlemanly, very handsome young man who has made for himself a warm place in the hearts of his people. He is a rising, young man and we all hope he may attain the top round of the ladder in journalism. This column feels an unusual interest in this dear couple. Already the bride-elect has received several handsome presents to her from her intended. May these young lives be ever as

Two birds in one nest.
Two hearts united as one.
Two spirits in one faith.
Two lovers in one way.
Two together for joy, together best.

An ear that waits to catch
A heart that beats the sweetest note to win,
A world of care without
A world of grief without
A world of love that waits to win.

The Cooking Club which met at the home of Mrs. J. H. Dittie last Wednesday evening, with invited guests, had a good old fashioned time.

My friends to be the editor and not your scribbles for the notice.

FRANK-HERON.

Last Thursday evening at 7:30 o'clock Miss Lucy Frank and Mr. David C. Heron, were married in the Baptist church, Rev. F. M. Smith officiating, using the Episcopal form of ceremony. The affair was very beautifully planned and carried out, every promise being perfectly in accordance with the plan. Miss Lucy has a host of friends and long before the shades of night had settled the eager throng of friends had gathered at the house of Mr. F. M. Smith, where the organ finally merged the last sweet strains of familiar air, into the grand tones of Mendelssohn's Wedding March, at the moment the bride party arrived. Miss Schweitzer and Mr. Holman, Miss Bennett and Dr. L. H. Moore, Miss Jenn. Warfield and Mr. Clarence Band, Miss Lee Washington and Mr. Fred Frazer, the attendants entered opposite sides, forming a semi-circle. The bride attended by her maid of honor, Miss Lillie Scott, of Harlanburg, Mr. Heron by his best man, Mr. Geo. E. Drury, met at the altar and the words making the union, were spoken under the soft sweet strains of the organ and amid the heartfelt prayers and good wishes of a host of friends. These two in the sight of God and man, were made "man and wife." They remained immediately to the home of the bride, where amid lovely flowers and sweet perfumed friends and loved ones, congratulated the happy pair. The bride was charmingly gowned in pure white, the maids in colors and in white, all looking as sweet and lovely as only fair glowing girls in "bridal array" can look. There were numerous presents, all handsome and serviceable, among them notably and to be treasured intrinsically, a book called "Wedding Bells," in which was a copy of the marriage certificate, signed by the minister and witnessed by maid of honor and best man, the attendants and guests also registered, making it a gift worthy the giver, the charming maid of honor.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a tea-spoonful. It acts directly on the blood and mucous surface of the system. They offer one hundred dollars for each case it fails to cure. Send for circulars and testimonials. Address: F. J. WOLLY MANUFACTURERS URGE MODERATION.

Admit That High Duties and Consequent High Prices Will Restrict the Use of Woolens.

Some of the severest criticisms not only of special duties and clauses, but of the whole accused protective system, come from the protected manufacturers themselves in their struggle with opposing interests. Mr. S. N. North, secretary of the Wool Manufacturers' Association, is now and always has been a staunch protectionist. As such he believes that the 70,000,000 consumers of this country are legitimate subjects for plunder and that the manufacturers are the proper persons to enjoy the protection.

The free wool experiment which we have been trying for three years, besides being an object lesson in the way of cheap woolens, has taught the woolen manufacturers that they can make more or more profit with free wool and moderate protection, which permits people of moderate means to wear real woolen goods, than with high duties on both wool and woolens, which restricts the use of moderate means to wearing cheap goods, than with high duties on both wool and woolens, which restricts the use of moderate means to wearing cheap goods.

The free wool experiment which we have been trying for three years, besides being an object lesson in the way of cheap woolens, has taught the woolen manufacturers that they can make more or more profit with free wool and moderate protection, which permits people of moderate means to wear real woolen goods, than with high duties on both wool and woolens, which restricts the use of moderate means to wearing cheap goods, than with high duties on both wool and woolens, which restricts the use of moderate means to wearing cheap goods.

This is practically saying to Dingler, Aldrich and the other servants of the protected manufacturers at Washington: "Go down with your high duties and don't try to protect too many. If you let everybody into the protection ring, there will be nobody outside to prey upon. We will have to pay for each other. Don't make the mistake of taxing raw materials too high. We would mind it if we could sell our goods and charge the tax over to the consumer. But when the tax is so high that we have to make our prices almost out of sight we have found that we cannot sell so many goods, because the people can't afford to wear clothes—that is, woolen clothes, which are the only ones worth considering because they are the most durable and the most comfortable. Our solicitude for the dear American consumer is such that we do not wish to compel him to cut himself in the back."

The Protectionist Performance.
The following is a part of ex-Congressman John De Witt Warner's criticism of the Dingler bill.
"As it stands the most brilliant part of the pending performance consists in cutting the words of the same actors in the Fifty-first Congress. The McKinley bill of that date was virtually entitled 'The McKinley Tariff Bill' and the Dingler bill is especially commended as a revenue getter. The McKinley bill pointed with pride to the fact that it was a revenue bill. The Dingler bill points with pride to the fact that it is a revenue bill. The McKinley bill was a single item of the breakfast table—one third of the total amount of the tariff tax proposed. The items which are supposed to help the farmer are good examples of so setting your trap as to catch 'em acumin and sewin'. For instance, we have reciprocity in order to give the farmers a market abroad for their wool. It is assumed they cannot produce for home consumption unless they are highly protected, as is done by another section of the bill."

Scattered Sheep on the Hill.
Every advance toward a free exchange of commodities is an advance in civilization. Every obstruction to a free exchange is a form of the same narrow, despotic spirit which planted castles upon the Rhine to plunder peaceful commerce. Every obstruction to commerce is a tax upon consumption. Every facility to a free exchange cheapens commodities, increases trade and population and promotes civilization.—John Sherman in 1868.

The Best Treat's Tincture.
If you can advance the price of hides 2 cents a pound in this country, the people will pay several millions a year more than they do now for the hides and skins, and the money will go into the pockets of the Best Treat's Tincture.

What We Inherit
We are not to blame for. We cannot be held responsible for the disposition of our ancestors, nor are we responsible for the diseases which may manifest themselves in our blood as a heritage from former generations. But we are responsible if we allow these germs to develop into serious diseases which will impair our usefulness and our happiness. We are responsible if we transmit to our descendants the disease germs which it is possible for us to eradicate by the use of Hood's Sarsaparilla, the one true blood purifier. This medicine has power to make rich, red blood and establish perfect health in place of disease.

An eye for an eye and a tooth for a tooth, is the old Mosaic doctrine, but the doctor of to-day save the eye-sight by applying Sherrill's Eagle Eye Salve. It cures all forms of sore eyes and granulated lids. It strengthens weak eyes.

I've labored on from day to day
With one hope in my mind,
That when I was laid out,
I'd leave a will behind,
Something, you know,
To always show
That I had lived and wrought!
But now, at last,
This dream is broken—
I've got to share the common lot.
I've thrown a few of today
And risen from my bed
For months I've been his helpday clay,
With wild thoughts in my head.
The will would not
But I was no there to see—
But it's left on
Though I've been gone,
And that's the thing that saddens me.

What We Inherit
We are not to blame for. We cannot be held responsible for the disposition of our ancestors, nor are we responsible for the diseases which may manifest themselves in our blood as a heritage from former generations. But we are responsible if we allow these germs to develop into serious diseases which will impair our usefulness and our happiness. We are responsible if we transmit to our descendants the disease germs which it is possible for us to eradicate by the use of Hood's Sarsaparilla, the one true blood purifier. This medicine has power to make rich, red blood and establish perfect health in place of disease.
